

Co-Capacity is recruiting a new Colleague!

Co-Capacity is recruiting a programmer/software engineer

Co-Capacity is recruiting a programmer/software engineer who is challenged to strengthen the current Co-Capacity team and play an essential role in the further growth of our company.

Co-Capacity BV, People-Processes-Platforms, is a young dynamic organization specialized in information and knowledge management. We establish, facilitate and support communities and networks with a wide variety of knowledge sharing methods and (custom-made) web-based tools. Co-Capacity's activities are based around the three "P"s: People, Processes and Platforms. We are working in areas like international development, the Dutch maritime sector and the Dutch healthcare sector. Corporate Social Responsibility is one of Co-Capacity thrusts.

The Co-Capacity team consists of 4 core staff and a small group of freelance associates who join us on a regular base contributing to our projects.

Tasks

- Manage and implement projects together with our current senior programmer under the responsibility of Co-Capacity directors
 - Focus will be on:
 - Healthcare software development (dot NET framework applications)
 - Custom built web based Django applications
- Liaise with clients to formulate projects demands/ needs and draft project specifications
- Liaise with clients on bug fixing and adjustments

All activities are conducted in close collaboration with the other staff members

Qualifications

- Programming capacity:
 - Excellent knowledge of CSharp.Net
 - SQL
 - Javascript, CSS, HTML
 - Linux
 - Python, Django
- Ability to develop software from a user-perspective (user friendly GUI)
- Independent, strong communicator and team player at the same time
- Good in Dutch and English, both spoken and written
- Ambition to help Co-Capacity grow in terms of both quality and size

- Preferably bringing in own network with potential for Co-Capacity's products and services.
- Preferably Out of Box conceptual thinker
- Feeling for graphical design issues is an advantage

Background

- HBO(+) Informatics or equivalent
- Affiliation with one or more of the work areas of Co-Capacity

Contract details & Remuneration

- Full-time
- Contract for 1 year, potentially to be extended
- Remuneration depending on qualifications and working experience

Applications from qualified female candidates and applications from qualified disabled candidates are encouraged.

Deadline

If you think you are our next colleague, please do send your CV and motivation letter to info@co-capacity.org.

Deadline for application is May 15, 2010.

More Information
